DAILY HEALTH NUTRITION FOR HEALTHY CATS

EACH CAT DESERVES HER OWN HEALTH NUTRITION

Each cat has specific needs depending **on her age, her lifestyle, and some individual characteristics.**
Precise nutrition is essential for maintaining her health and well-being throughout her life.

Royal Canin has developed Feline Health Nutrition, a wide range of products **to meet the daily requirements of each individual cat.**

- **1ST AGE & 2ND AGE** — A unique programm taking into account kittens and their mothers!
- **LIFESTYLE** Home life & Active life — The perfect balance of energy whatever her lifestyle!
- **REGULAR** — Health nutrition for sterilised adult cats and adult cats without specific needs.
- **FELINE PREFERENCE** — Even for the fussiest cats!
- **SENIOR AGE** — To be healthier longer!

DAILY HEALTH NUTRITION ALSO IN WET!

Available in different textures :

GRAVY JELLY

Babycat milk From birth to weaning - 1st age milk

[300g box: 3 x 100g sachets]

HARMONIOUS GROWTH

For steady, harmonious growth, the composition of BABYCAT MILK is as close as possible to queen's milk.

DIGESTIVE HEALTH

BABYCAT MILK contains carefully selected ultra-digestible proteins, and has a lactose content very close to that of maternal milk. It is particularly suitable for the kitten's digestive system, because it does not contain starch, (kittens don't secrete enough enzyme to digest starch). The kitten's intestinal flora develops gradually over several weeks. The addition of probiotics (FOS) contributes to promoting digestive health.

INSTANT MILK

With its exclusive formula, BABYCAT MILK dissolves instantly and completely, with no sediment, creating a totally homogenous formula. (see the utilisation guide).

DHA

DHA Added

The kitten's nervous system continues to develop after birth. DHA naturally present in maternal milk supports the development of cognitive function.

INGREDIENTS

COMPOSITION

Milk proteins, milk fat, vegetable oils (including arachidonic acid-rich oil), whey protein, fish oil (source of DHA), minerals, fructo-oligo-saccharides.

ADDITIVES (PER KG)

Nutritional additives: Vitamin A: 25000 IU, Vitamin D3: 1500 IU, E1 (Iron): 100 mg, E2 (Iodine): 4 mg, E4 (Copper): 15 mg, E5 (Manganese): 80 mg, E6 (Zinc): 230 mg, E8 (Selenium): 0.43 mg, Taurine: 2.5 g - Antioxidants.

First Age
MOTHER & BABYCAT

Gestating / lactating queens and 1 to 4 month old kittens

[Available in 400g - 2kg - 4kg]

REHYDRATABLE

IMMUNE SYSTEM SUPPORT

Between 4 and 12 weeks after birth, the natural immunity acquired from the mother's colostrum decreases gradually. **MOTHER & BABYCAT** helps support the 1st age kitten's natural defences thanks particularly to a patented* complex of antioxidants including vitamin E.

*France, patent No EP1146870

SPECIAL EASY WEANING

Adapted kibble that can be easily rehydrated to facilitate the transition from milk to solid food.

DIGESTIVE HEALTH

Enhanced digestive tolerance thanks to highly digestible protein (L.I.P.*) and prebiotics (including FOS).

*Protein selected for its very high digestibility

Enriched with DHA

DHA helps support the kitten's cerebral development during gestation and lactation.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, animal fats, maize flour, rice, vegetable protein isolate*, hydrolysed animal proteins, yeasts and parts thereof, fish oil, beet pulp, vegetable fibres, soya oil, minerals, fructo-oligo-saccharides (0,35%), hydrolysed yeast (source of manno-oligo-saccharides), yeasts extracts (source of betaglucans), marigold extract (source of lutein).

ADDITIVES (PER KG)

Nutritional additives: Vitamin A: 25500 IU, Vitamin D3: 1000 IU, Vitamin E: 600 mg, E1 (Iron): 31,8 mg, E2 (Iodine): 3,2 mg, E4 (Copper): 9,8 mg, E5 (Manganese): 41,4 mg, E6 (Zinc): 118,1 mg, E8 (Selenium): 0,04 mg - Technological additives: Clinoptilolite of sedimentary origin: 5 g - Preservatives - Antioxidants.

*L.I.P.: protein selected for its very high assimilation.

FEEDING GUIDELINES

MOTHER & BABYCAT

Mothers & 1st age kittens from weaning up to 4 months old (1-4 months)

1st AGE EASY START

1st AGE EASY START

For 1st age kittens, the «mousse» texture of MOTHER & BABYCAT facilitates the transition to solid food.

INSTINCTIVELY PREFERRED

Formulated to match the optimal Macro Nutritional Profile instinctively preferred by kittens.

IMMUNE SYSTEM SUPPORT

Helps support the 1st age kitten's natural defences.

INGREDIENTS

COMPOSITION

Meat and animal derivatives, cereals, oils and fats, derivatives of vegetable origin, milk and milk derivatives, minerals, yeasts, various sugars.

ADDITIVES (PER KG)

Nutritional additives: Vitamin D3: 130 IU, E1 (Iron): 5 mg, E2 (Iodine): 0.37 mg, E4 (Copper): 3 mg, E5 (Manganese): 1.5 mg, E6 (Zinc): 15 mg.

Second Age

KITTEN

Kittens up to 12 months old

[Available in 400g - 2kg - 4kg - 10kg]

IMMUNE SYSTEM SUPPORT

Growth is an essential stage in the kitten's life: it is the time of big changes, discoveries and new encounters. During this key period, the kitten's immune system develops gradually. **KITTEN** helps support the 2nd age kitten's natural defences thanks particularly to a patented* complex of antioxidants including vitamin E.

*France, patent No EP1146870

DIGESTIVE HEALTH

Enhanced digestive tolerance thanks to highly digestible protein (L.I.P.*) and prebiotics (including FOS).

*Protein selected for its very high digestibility

HEALTHY GROWTH

Adapted content of protein, vitamins and minerals including vitamin D and calcium. High energy content to fit this intense growth period.

L.I.P.

Selected protein with digestibility over 90% (Royal Canin).

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, rice, vegetable protein isolate*, animal fats, maize flour, hydrolysed animal proteins, wheat flour, maize gluten, yeasts and parts thereof, beet pulp, vegetable fibres, fish oil, soya oil, minerals, fructo-oligo-saccharides (0,38%), psyllium husks and seeds, hydrolysed yeast (source of manno-oligo-saccharides), yeasts extracts (source of betaglucans), marigold extract (source of lutein).

ADDITIVES (PER KG)

Nutritional additives: Vitamin A: 21500 IU, Vitamin D3: 800 IU, Vitamin E: 600 mg, E1 (Iron): 32,3 mg, E2 (Iodine): 3,2 mg, E4 (Copper): 9,9 mg, E5 (Manganese): 42 mg, E6 (Zinc): 116,5 mg, E8 (Selenium): 0,05 mg - Technological additives: Clinoptilolite of sedimentary origin: 10 g - Preservatives - Antioxidants.

*L.I.P.: protein selected for its very high assimilation.

Regular FIT 32

Adult cats at maintenance

[Available in 400g - 2kg - 4kg - 10kg - 15kg]

OPTIMAL NUTRIENT PROFILE

To meet all the requirements of adulthood, cats need nutrition of a high quality. **FIT 32** contains the right level of beneficial nutrients to maintain adult cats in good health.

HEALTHY WEIGHT

Adjusted calorie content to help maintain the ideal weight of adult cats.

HAIRBALL REDUCTION

Helps stimulate the elimination of ingested hair thanks to specific fibres.

URINARY HEALTH

Formulated to help maintain health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, rice, wheat, maize, animal fats, dehydrated pork protein, vegetable fibres, wheat flour, hydrolysed animal proteins, maize gluten, yeasts and parts thereof, beet pulp, soya oil, fish oil, minerals, psyllium husks and seeds, hydrolysed yeast (source of manno-oligo-saccharides), marigold extract (source of lutein).

ADDITIVES (PER KG)

Nutritional additives: Vitamin A: 13000 IU, Vitamin D3: 700 IU, E1 (Iron): 35 mg, E2 (Iodine): 3,5 mg, E4 (Copper): 11 mg, E5 (Manganese): 45 mg, E6 (Zinc): 136 mg, E8 (Selenium): 0.09 mg - Zootechnical additives: Ammonium chloride: 5 g - Preservatives - Antioxidants.

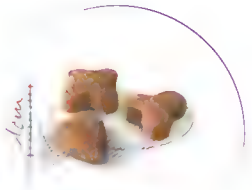
Regular SENSIBLE 33

Sensitive adult cats



[Available in 400g - 2kg - 4kg - 10kg - 15kg]

OPTIMAL DIGESTION

Some cats have digestive sensitivity leading to soft stools. **SENSIBLE 33** contains an exclusive combination of nutrients to support optimal digestive security (L.I.P.*) and prebiotics for a balanced intestinal flora.

*L.I.P.: protein selected for its very high digestibility

HIGH PALATABILITY

Three different kibble shapes and carefully selected flavourings to stimulate food intake in sensitive cats.

CONCENTRATED ENERGY

For cats requiring a higher energy density.

URINARY HEALTH

Formulated to help maintain health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, rice, animal fats, maize, vegetable protein isolate*, dehydrated pork protein, wheat flour, wheat, hydrolysed animal proteins, maize gluten, yeasts and parts thereof, beet pulp, minerals, fish oil, vegetable fibres, soya oil, fructo-oligo-saccharides.

ADDITIVES (PER KG)

Nutritional additives: Vitamin A: 18500 IU, Vitamin D3: 1000 IU, E1 (Iron): 38 mg, E2 (Iodine): 3.8 mg, E4 (Copper): 12 mg, E5 (Manganese): 50 mg, E6 (Zinc): 150 mg, E8 (Selenium): 0.1 mg - Technological additives: Clinoptilolite of sedimentary origin: 5 g - Zootechnical additives: Ammonium chloride: 5 g - Preservatives - Antioxidants.

*L.I.P. : protein selected for its very high assimilation.

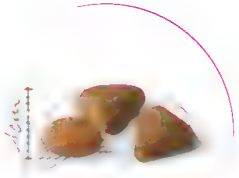
Feline Preference
SAVOUR Exigent

Fussy cats - Savour discerning



[Available in 400g - 2kg - 4kg - 10kg]

DUAL SAVOUR SENSATION

Some fussy cats are most attracted by diversity in the bowl. **SAVOUR EXIGENT** contains 2 synergistic kibbles, each of a different formula and texture, to stimulate the natural preference of these cats.

OPTIMAL WEIGHT

Adapted energy content to help maintain the fussy cat at ideal weight.

INDIVIDUAL PREFERENCE

Each cat has a natural preference when selecting food: aromatic profile, savour diversity or by protein level. Royal Canin has developed 3 different formulas to satisfy even the fussiest cats.

URINARY HEALTH

Formulated to help maintain health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Maize, dehydrated poultry protein, rice, vegetable protein isolate*, animal fats, maize gluten, hydrolysed animal proteins, vegetable fibres, yeasts and parts thereof, minerals, beet pulp, soya oil, fructo-oligo-saccharides, borage oil.

ADDITIVES (PER KG)

Vitamin A: 14500 IU, Vitamin D3: 800 IU, E1 (Iron): 37 mg, E2 (Iodine): 3.7 mg, E4 (Copper): 11 mg, E5 (Manganese): 48 mg, E6 (Zinc): 143 mg, E8 (Selenium): 0.08 mg - Technological additives: Clinoptilolite of sedimentary origin: 5 g - Zootechnical additives: Ammonium chloride: 5 g - Preservatives - Antioxidants.

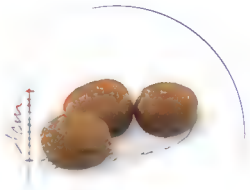
Regular

STERILISED



[Available in 400g - 2kg - 4kg - 10kg - 15kg]

WEIGHT MANAGEMENT

After neutering, energy requirements of cats decrease. **STERILISED 37** helps limit the risk of excess weight gain thanks to a moderate level of fat and adequate daily rations.

URINARY HEALTH

Helps support a healthy urinary system by providing an adequate mineral balance.

HIGH PROTEIN CONTENT

Helps maintain muscle mass thanks to a high protein content.

ENRICHED WITH L-CARNITINE

L-Carnitine is involved in healthy fat metabolism.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, maize, vegetable protein isolate*, vegetable fibres, animal fats, hydrolysed animal proteins, rice, wheat, beet pulp, maize gluten, yeasts and parts thereof, minerals, fish oil, fructo-oligo-saccharides, soya oil.

ADDITIVES (PER KG)

KG

WEIGHT MAINTENANCE

Helps maintain ideal weight of sterilised cats.

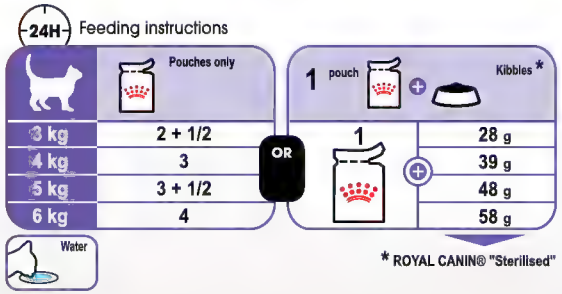
HEALTHY URINARY SYSTEM

Helps support a healthy urinary system.

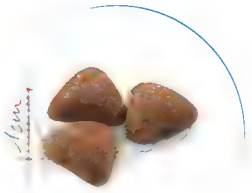
INSTINCTIVELY PREFERRED

Formulated to match the optimal Macro Nutritional Profile instinctively preferred by adult cats.

FEEDING GUIDELINES



Home Life
INDOOR 27



[Available in 400g - 2kg - 4kg - 10kg]

STOOL ODOUR REDUCTION
A lack of exercise may lead to a slower intestinal transit and smelly stools. **INDOOR 27®** contains highly digestible protein (L.I.P.*) and helps reduce the quantity and odour of stools.
*L.I.P. protein selected for its very high digestibility

MODERATE CALORIE
A moderate fat content adapted to the lower activity of indoor cats.

HAIRBALL REDUCTION
Helps stimulate the elimination of ingested hair thanks to specific fibres including psyllium.

URINARY HEALTH
Formulated to help maintain health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION
Dehydrated poultry protein, rice, wheat, maize, vegetable protein isolate*, animal fats, hydrolysed animal proteins, wheat flour, vegetable fibres, beet pulp, yeasts and parts thereof, soya oil, minerals, fructo-oligo-saccharides, fish oil, psyllium husks and seeds (0.5%).

ADDITIVES (PER KG)
Nutritional additives: Vitamin A: 13500 IU, Vitamin D3: 700 IU, E1 (Iron): 42 mg, E2 (Iodine): 4.2 mg, E4 (Copper): 13 mg, E5 (Manganese): 55 mg, E6 (Zinc): 164 mg, E8 (Selenium): 0.09 mg - Technological additives: Clinoptilolite of sedimentary origin: 10 g - Preservatives - Antioxidants.

*L.I.P. : protein selected for its very high assimilation.

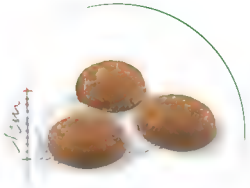
Active Life
OUTDOOR
Active outdoor cats



[Available in 400g - 2kg - 4kg - 10kg]

ACTIVITY SUPPORT
Cats with access to the outdoors may need higher calorie nutrition. **OUTDOOR** meets the energy requirements of active cats.

SKIN BARRIER
Contains a specific combination of nutrients to support skin barrier associated with a complex of antioxidants.

JOINT HEALTH
Contains a combination of joint supporting nutrients and EPA and DHA.

URINARY HEALTH
Formulated to help maintain health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION
Dehydrated poultry protein, rice, maize, animal fats, wheat, hydrolysed animal proteins, vegetable protein isolate*, maize gluten, yeasts and parts thereof, beet pulp, fish oil, minerals, copra oil, soya oil, fructo-oligo-saccharides, hydrolysed yeast (source of manno-oligo-saccharides), borage oil, marigold extract (source of lutein), hydrolysed crustaceans (source of glucosamine), hydrolysed cartilage (source of chondroitin).

ADDITIVES (PER KG)
Vitamin A: 32000 IU, Vitamin D3: 900 IU, Vitamin C: 230 IU, E1 (Iron): 38 mg, E2 (Iodine): 3,8 mg, E4 (Copper): 12 mg, E5 (Manganese): 50 mg, E6 (Zinc): 149 mg, E8 (Selenium): 0,07 mg Sensory additives: tea extract (source of polyphenols): 0,6 g - Preservatives - Antioxidants.

*L.I.P. : protein selected for its very high assimilation.

Senior AGEING 12+ years

Senior cats over 12 years old

[Available in 400g - 2kg - 4kg]

EXCLUSIVE KIBBLE

APPETITE STIMULATION

In some senior cats, the senses of taste and smell decline with age which leads to lower food intake. **AGEING 12+** helps stimulate the senior cat's appetite with a highly palatable, double texture kibble which is easy to chew.

HEALTHY AGEING COMPLEX

A patented complex of antioxidants including lycopene and Omega-3 fatty acids to support the body systems through the ageing process.

* France, patent N° EP1146870

RENAL HEALTH

Helps support renal healthy function thanks to a moderate phosphorus level.

URINARY Health

URINARY HEALTH

Formulated to help maintain health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

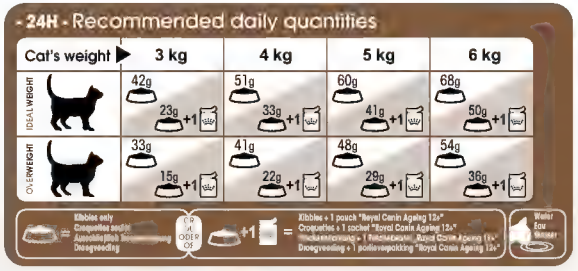
Vegetable protein isolate*, precooked wheat flour, animal fats, dehydrated poultry protein, rice, maize, vegetable fibres, hydrolysed animal proteins, chicory pulp, minerals, fish oil, soya oil, yeasts and parts thereof, tomato (source of lycopene), fructo-oligo-saccharides, psyllium husks and seeds, hydrolysed yeast (source of manno-oligo-saccharides), hydrolysed crustaceans (source of glucosamine), borage oil, marigold extract (source of lutein), hydrolysed cartilage (source of chondroitin).

ADDITIVES (PER KG)

Vitamin A: 19000 IU, Vitamin D3: 700 IU, E1 (Iron): 37 mg, E2 (Iodine): 3.7 mg, E4 (Copper): 11 mg, E5 (Manganese): 48 mg, E6 (Zinc): 145 mg, E8 (Selenium): 0.06 mg - Sensory additives: Tea extract (source of polyphenols): 0.6 g - Preservatives - Antioxidants.

*L.I.P. : protein selected for its very high assimilation.

FEEDING GUIDELINES



*Taking into account cats' weight

PROVEN EFFECTS, VISIBLE RESULTS

TARGETED NUTRITION you can rely on

Many different factors lead to sensitivities, which can interfere directly with the cat's health.
Scientific studies and ROYAL CANIN®'s research have demonstrated the essential role of nutrition in health.

TARGETING AND OVERCOMING CAT SENSITIVITIES

The **FELINE CARE NUTRITION** range has been specially designed by veterinarians and nutritionists to **tackle cats' particular sensitivities**: dull coat and sensitive skin, tartar and dental plaque formation, tendency to gain weight, difficulty eliminating hairballs, digestive disorders.

CONCENTRATING ON NUTRITIONAL EXPERTISE WITH PROVEN RESULTS

Formulated from nutrients rigorously selected for their **target action, FELINE CARE NUTRITION** clearly **guarantees visible and measurable** improvements within a **given period of time**. **Concentrated expertise for fast action, meal after meal.** These can be recommended for everyday use or short-term improvement.

PROVEN EFFECTIVENESS, VISIBLE RESULTS.

HEALTH CARE EXPERTISE ALSO IN WET!

CARE

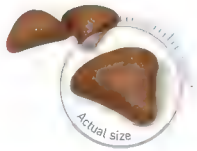
HAIRBALL

Adult cats - Helps reduce hairball formation

[Available in 2kg, 4kg]

PROVEN RESULTS
x2
HAIR EXCRETION
IN 14 DAYS

- DIETARY FIBRE BLEND
- PSYLLIUM



Cats spend a large portion of their day grooming, and therefore can swallow large quantities of hair. This ingested hair can become compacted in the digestive tract forming hairballs which are either regurgitated or eliminated through the faeces.

HAIRBALL CARE is a precisely balanced nutritional formula which naturally helps reduce hairball formation.

- The exclusive **HAIRBALL CARE** complex is composed of a specific blend of dietary fibres, including psyllium (rich in mucilage), and insoluble fibres to **help naturally stimulate intestinal transit**.
- As a consequence, **hair swallowed daily can be eliminated in the faeces** rather than building up in the stomach and being regurgitated.

PROVEN RESULTS

The exclusive use of **HAIRBALL CARE** is effective after 14 days, doubling* the amount of hair that is eliminated naturally in the faeces.

**Royal Canin internal study, 2013 Compared to a control feed for adult cats not containing the Hairball Care exclusive complex.*

URINARY health

Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, vegetable protein isolate*, maize, vegetable fibres, rice, animal fats, hydrolysed animal proteins, wheat, maize flour, maize gluten, beet pulp, yeasts and parts thereof, minerals, soya oil, fish oil, fructo-oligosaccharides, psyllium husks and seeds (0.5%).

**LIP: protein selected for its very high digestibility.*

ADDITIVES (PER KG)

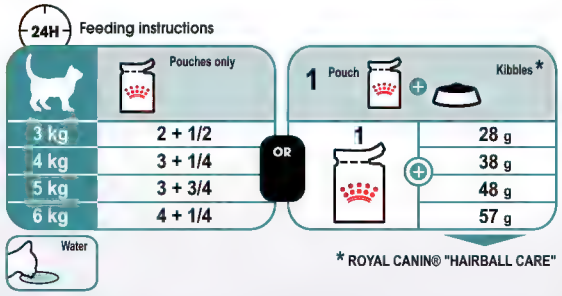
Helps maintain ideal weight.

HEALTHY DIGESTIVE SYSTEM

High digestibility.

FEEDING GUIDELINES



CARE

HAIR&SKIN

Adult cats - Supports a healthy skin and shiny coat

[Available in 2kg, 4kg]

Skin cells are constantly being renewed and have significant nutritional needs. Some cats have sensitive skin as evidenced by poor coat condition, which can be supported by a proper nutritional balance.

HAIR & SKIN CARE is a precisely balanced nutritional formula which helps maintain skin and coat health.

Formulated with:

- An exclusive complex of nutrients which helps **support the skin's barrier role**.
- High quality proteins with specific amino acids help promote **healthy hair growth and skin renewal**.
- Omega-3 and Omega-6 fatty acids for their beneficial effects on **skin health and coat condition**.

PROVEN RESULTS

The exclusive use of **HAIR & SKIN CARE** brings a significant improvement in coat shine after 21 days*.

**Royal Canin internal study, 2006.*

URINARY health

Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, animal fats, vegetable protein isolate*, rice, vegetable fibres, maize, hydrolysed animal proteins, wheat, yeasts and parts thereof, maize flour, maize gluten, beet pulp, soya oil, fish oil, minerals, borage oil, marigold extract (source of lutein).

**LIP: protein selected for its very high digestibility.*

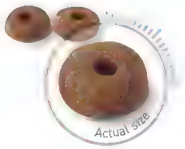
- FIBRES & PSYLLIUM
- L-CARNITINE



Does your cat have a tendency to gain weight? Maintaining an ideal body condition and muscle mass is a crucial aspect of a cat's overall health.

• PROVEN RESULTS

Over 90% of slightly overweight cats, fed with ROYAL CANIN® LIGHT WEIGHT CARE dry formula, achieved a healthier weight in 8 weeks*.

**Royal Canin internal study*

Kcal

- Ideal fibre blend to support **the feeling of fullness.**
- Adapted protein content to help **maintain muscle mass** for healthy weight maintenance. **Enriched with L-carnitine,** involved in a healthy fat metabolism.
- Hunger-satisfying nutrition with a rich taste, formulated to help **keep your cat fit.**

WEIGHT MANAGEMENT PROGRAM

1. *Providing complete and balanced nutrition across both our wet and dry formulas, enabling you to choose the perfect combination for your cat.*
2. *Get your cat active with in-home games and feeding puzzles.*
3. *Avoid human food and fatty snacks.*

If you have any questions or concerns about your cat's health, please contact your veterinarian.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, vegetable fibres, vegetable protein isolate*, maize, hydrolysed animal proteins, maize gluten, maize flour, rice, wheat, animal fats, mineral, beet pulp, yeasts and parts thereof, fish oil, psyllium husks and seeds, soya oil.

**LIP protein selected for its very high digestibility*

ADDITIVES (PER KG)

Nutritional additives: Vitamin A: 21000 IU, Vitamin D3: 800 IU, Iron (3b103): 30 mg, Iodine (3b201, 3b202): 3 mg, Copper (3b405, 3b406): 9 mg, Manganese (3b502, 3b504): 39 mg, Zinc (3b603, 3b605, 3b606): 128 mg, Selenium (3b801, 3b811, 3b812): 0.06 mg, L-carnitine: 200 mg - Preservatives - Antioxidants.

CARE

ORAL

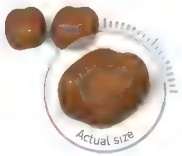
Adult cats - Helps reduce tartar formation

[Available in 400g - 1,5kg - 3,5kg - 8kg]

PROVEN RESULTS

UP TO **59%** REDUCED TARTAR FORMATION IN 28 DAYS

- TOOTH BRUSHING EFFECT
- ACTIVE DENTAL AGENT



Tartar build-up is the mineralization of dental plaque in contact with saliva, which can lead to sensitive gums. Oral hygiene plays an important role in your cat's overall health.

ORAL CARE is a precisely balanced nutritional formula which helps support oral health by reducing the formation of dental plaque.

With double action:

- **Mechanical action:** Specifically designed for a targeted action, the **ORAL CARE** kibble size, texture and shape encourages the cat to chew thoroughly. This mechanical action produces a daily tooth brushing effect that helps reduce the formation of dental plaque on teeth.
- **Chemical action:** formula enriched with an "Active Dental Agent" (calcium chelators) which traps the salivary calcium to help limit dental plaque mineralization.

PROVEN RESULTS

The exclusive use of **ORAL CARE** is effective after 28 days: up to 59%* reduction in tartar formation.

**Royal Canin internal study, 2005 - Compared to a control feed for adult cats not containing the Oral Care active components and measured on the most vulnerable teeth*

URINARY health

Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, rice, maize, vegetable protein isolate*, animal fats, maize flour, vegetable fibres, hydrolysed animal proteins, wheat, maize gluten, minerals, beet pulp, fish oil, fructo-oligo-saccharides, soya oil, psyllium husks and seeds.

**LIP: protein selected for its very high digestibility*

TAILOR MADE NUTRITION FOR PURE BREED CATS

EVERY BREED HAS UNIQUE NEEDS

Just one glance tells you how **different** and **incredible** breed cats are. Some impress with their coat, others their stature or temperament. Each has her own features which **result in specific nutritional needs**.

BRINGING OUT THE BEST IN EACH BREED!

These details inspired our range of breed-exclusive formulas, tailor-made for their individual needs and based on over 45 years of close partnership with a network of breeders, veterinarians and experts worldwide.

FELINE BREED NUTRITION offers each breed **a specially designed kibble shape and texture** adapted to its **unique jaw structure** and **eating habits**, along with perfectly balanced nutrients, in an **exclusive formula** suiting their health sensitivities. **A concentration of technical expertise created to maintain their health, beauty, vitality and well-being everyday.**

WE HAVE 8 CAT BREED FORMULAS. AND A REASON FOR EVERY ONE.

EVEN THE WAY YOUR BREED EATS IS SOMETHING SPECIAL.

Pure breeds have different muzzle lengths, jaw structures and biting patterns that affect the way they pick up and chew their kibbles. **That's why each ROYAL CANIN® FELINE BREED NUTRITION formula has its own exclusive kibble size, shape, texture and density.**

TEXTURE
Some kibbles are designed to take longer to break than others, depending on the size and jaw strength of the breed.

SHAPE AND SIZE
Each kibble is designed to be the best shape and size for the breed's jaw and mouth size to ensure the kibble is easy to pick up and chew.

DENSITY
Kibbles are designed around each breed's rate of ingestion and caloric needs.

ADULT British Shorthair

ADULT British Shorthair - Over 12 months old

[Available in 2kg, 4kg]

Tailor-made kibble

EXCLUSIVE FORMULA
L-carnitine & Taurine

SPECIAL BRITISH SHORTHAIR JAW

This specially designed large curvy-shaped kibble is adapted to the British Shorthair cat's broad jaw. The unique kibble facilitates grasping and encourages chewing to help support oral hygiene.

The British Shorthair cat has a sturdy, heavy and muscular body.

MUSCLE TONE

An adapted level of protein contributes to maintaining muscle mass.

BONE & JOINT HEALTH

Formulated to support healthy bones and joints. Enriched with Omega 3 fatty acids (EPA and DHA).

CARDIAC HEALTH

Taurine, EPA and DHA to help maintain healthy cardiac function.

URINARY HEALTH

Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, rice, vegetable protein isolate*, animal fats, maize, maize gluten, vegetable fibres, hydrolysed animal proteins, chicory pulp, fish oil, soya oil, minerals, yeasts and parts thereof, fructo-oligo-saccharides, hydrolysed yeast (source of manno-oligo-saccharides), borage oil, hydrolysed crustaceans (source of glucosamine), marigold extract (source of lutein), hydrolysed cartilage (source of chondroitin).

*LIP protein selected for its very high digestibility.

ADDITIVES (PER KG)

Nutritional additives: Vitamin A: 31000 IU, Vitamin D3: 800 IU, E1 (Iron): 40 mg, E2 (Iodine): 4 mg, E4 (Copper): 12 mg, E5 (Manganese): 51 mg, E6 (Zinc): 154 mg, E8 (Selenium): 0,08 mg, L-carnitine: 200 mg, Taurine: 2,6 g - Technological additives: Clinoptilolite of sedimentary origin: 10 g - Preservatives - Antioxidants.

KITTEN

Maine Coon

KITTEN Maine Coon - Up to 15 months old

[Available in 2kg, 4kg]

kibble

EXCLUSIVE FORMULA
Calcium & Phosphorus

SPECIAL LARGE JAW

This specially designed cube-shaped kibble is adapted in size and texture to the large jaw of the Maine Coon kitten. The unique kibble encourages chewing to help support oral hygiene.

Growth for the Maine Coon kitten is exceptionally long, laying down the framework for the breed's unique large stature.

HEALTHY LONG GROWTH PERIOD

With adapted energy and protein content, and precisely balanced vitamins (including vitamin D) and minerals (including calcium and phosphorus) to help support healthy bone and joint development for balanced growth.

DIGESTIVE HEALTH

Highly digestible protein (L.I.P.*) and prebiotics to help support a balance in the intestinal flora.

*Protein selected for its very high digestibility

IMMUNE SYSTEM SUPPORT

A patented complex* of antioxidants, including vitamin E, helps support the kitten's natural defences.

*France, patent N° EP1146870

L.I.P.

Selected protein with digestibility over 90%.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, animal fats, rice, vegetable protein isolate*, maize, wheat flour, hydrolysed animal proteins, vegetable fibres, beet pulp, yeasts and parts thereof, fish oil, soya oil, fructo-oligo-saccharides, minerals, psyllium husks and seeds, hydrolysed yeast (source of manno-oligo-saccharides), borage oil, marigold extract (source of lutein), hydrolysed crustaceans (source of glucosamine), hydrolysed cartilage (source of chondroitin).

*L.I.P. protein selected for its very high digestibility

ADDITIVES (PER KG)

ADULT

Maine Coon

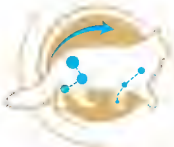
ADULT Maine Coon - Over 15 months old

Available in 2kg, 4kg

EXCLUSIVE FORMULA
Taurine & Omega 3 fatty acids

SPECIAL LARGE JAW

This specially designed king size cube-shaped kibble is adapted to the large square jaw of the Maine Coon. The unique kibble encourages chewing to help support oral hygiene.



The Maine Coon's large size and grand stature can challenge joints throughout her life.

JOINT SUPPORT

Formulated to support healthy bones and joints. Enriched with EPA and DHA.

CARDIAC HEALTH

Taurine, EPA and DHA to help maintain healthy cardiac function.

HEALTHY SKIN & COAT

Specific amino acids, vitamins, Omega 3 and Omega 6 fatty acids to help maintain a healthy skin and coat.

URINARY HEALTH

Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, rice, maize, animal fats, maize gluten, vegetable protein isolate*, vegetable fibres, hydrolysed animal proteins, beet pulp, minerals, fish oil, soya oil, psyllium husks and seeds, yeasts and parts thereof, fructo-oligo-saccharides, hydrolysed yeast (source of manno-oligo-saccharides), borage oil, hydrolysed crustaceans (source of glucosamine), marigold extract (source of lutein), hydrolysed cartilage (source of chondroitin).

*L I P protein selected for its very high digestibility

ADDITIVES (PER KG)

Vitamin A: 30500 IU, Vitamin D3: 800 IU, E1 (Iron): 40 mg, E2 (Iodine): 4 mg, E4 (Copper): 12 mg, E5 (Manganese): 51 mg, E6 (Zinc): 154 mg, E8 (Selenium): 0,08 mg, Taurine: 2,58 g - Technological additives: Clinoptilolite of sedimentary origin: 10 g - sensory additives:tea extract (source of polyphenols): 0,6 g - Preservatives - Antioxidants.

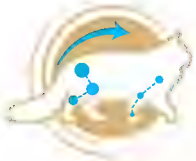
ADULT

Maine Coon

ADULT Maine Coon - Over 15 months old



The Maine Coon's large size and grand stature can challenge joints throughout her life.

BONE & JOINT HEALTH
Helps maintain the healthy bones and joints of this largest cat.

CONCENTRATED ENERGY
High concentrated energy formula.

HEALTHY SKIN & COAT
Helps maintain skin and coat health.

INGREDIENTS

COMPOSITION

Meat and animal derivatives, cereals, fish and fish derivatives, vegetable protein extracts, derivatives of vegetable origin, oils and fats, minerals, various sugars, molluscs and crustaceans.

ADDITIVES (PER KG)

Nutritional additives: Vitamin D3: 310 IU, E1 (Iron): 11 mg, E2 (Iodine): 0.3 mg, E4 (Copper): 2.6 mg, E5 (Manganese): 3.4 mg, E6 (Zinc): 34 mg.

KITTEN

Persian

KITTEN Persian - Up to 12 months old

[Available in 400g, 2kg, 4kg]

Tailor-made kibble

EXCLUSIVE FORMULA
Omega 3 & Omega 6 fatty acids

SPECIAL BRACHYCEPHALIC JAW

This specially designed tiny rectangular kibble with a soft texture is easy for the Persian kitten to pick up and chew.

During growth, the Persian kitten develops a long, dense and silky coat, the hallmark of the breed.

HEALTHY GROWTH & LONG HAIR

With adapted protein content, and precisely balanced vitamins and minerals (including calcium and phosphorus) to help support healthy growth while contributing to healthy skin and a beautiful coat.

DIGESTIVE PERFORMANCE

Highly digestible protein (L.I.P.*), an adapted fibre content (including psyllium) and prebiotics to help support a balance in the intestinal flora.

IMMUNE SYSTEM SUPPORT

A patented complex* of antioxidants, including vitamin E, helps support the kitten's natural defences.

*France patent N° EP1146870.

L.I.P.
Selected protein with digestibility over 90%.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, rice, animal fats, maize, vegetable protein isolate*, hydrolysed animal proteins, vegetable fibres, beet pulp, yeasts and parts thereof, fish oil, soya oil, minerals, fructo-oligo-saccharides, psyllium husks and seeds (0,5%), hydrolysed yeast (source of manno-oligo-saccharides), borage oil, marigold extract (source of lutein)

*L.I.P. protein selected for its very high digestibility

ADDITIVES (PER KG)

Vitamin A: 32000 IU, Vitamin D3: 900 IU, Vitamin E: 650 mg, E1 (Iron): 38 mg, E2 (Iodine): 3,8 mg, E4 (Copper): 12 mg, E5 (Manganese): 50 mg, E6 (Zinc): 150 mg, E8 (Selenium): 0,08 mg - Technological additives: Clinoptilolite of sedimentary origin: 10 g - Preservatives - Antioxidants.

ADULT

Persian

ADULT Persian - Over 12 months old

[Available in 400g, 2kg, 4kg, 10kg]

Tailor-made kibble

EXCLUSIVE FORMULA
Omega 3 & Omega 6 fatty acids

SPECIAL BRACHYCEPHALIC JAW

This specially designed almond-shaped kibble with an optimal contact surface area is easy for the Persian cat to pick up and chew.

A long, luxurious coat, with a dense undercoat, is the hallmark of the Persian cat.

LONG HAIR HEALTH

An exclusive complex of nutrients helps support the skin's "barrier" role, and helps maintain skin health and coat beauty. Enriched with Omega 3 and Omega 6 fatty acids.

HAIRBALL REDUCTION

A specific blend of fibres (including psyllium rich in mucilage) helps to naturally stimulate intestinal transit, eliminate ingested hair and control hairball formation.

DIGESTIVE PERFORMANCE

Highly digestible protein (L.I.P.*) and prebiotics to help support a balance in the intestinal flora.

*L.I.P. protein selected for its very high digestibility.

URINARY Health

URINARY HEALTH

Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

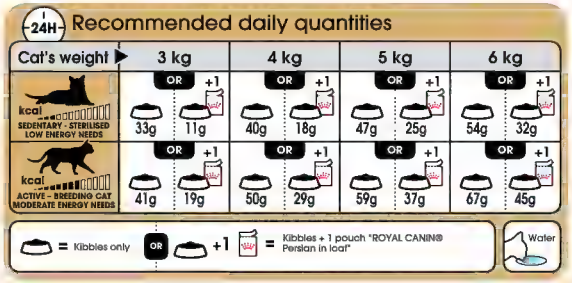
Dehydrated poultry protein, animal fats, rice, vegetable protein isolate*, maize flour, vegetable fibres, hydrolysed animal proteins, maize gluten, wheat flour, maize, yeasts and parts thereof, minerals, chicory pulp, fish oil, psyllium husks and seeds (1%), soya oil, fructo-oligo-saccharides, hydrolysed yeast (source of manno-oligo-saccharides), borage oil, marigold extract (source of lutein).

*L.I.P. protein selected for its very high digestibility.

ADDITIVES (PER KG)

Vitamin A: 31000 IU, Vitamin D3: 800 IU, E1 (Iron): 36 mg, E2 (Iodine): 3,6 mg, E4 (Copper): 11 mg, E5 (Manganese): 47 mg, E6 (Zinc): 140 mg, E8 (Selenium): 0,08 mg - Technological additives: Clinoptilolite of sedimentary origin: 10 g - Preservatives - Antioxidants.

FEEDING GUIDELINES



*Taking into account cats' weight

ADULT
Siamese

ADULT Siamese - Over 12 months old

[Available in 2kg, 4kg]

Tailor-made kibble

EXCLUSIVE FORMULA
Omega 6 fatty acids & L-carnitine

SPECIAL SIAMESE JAW
This specially designed tube-shaped kibble is easy for the narrow and long Siamese cat muzzle to grasp. This unique kibble encourages chewing to help reduce the rate of food intake.

The Siamese has an elegant and athletic silhouette.

LEAN MUSCULAR BODY
An increased level of proteins (38%) and a moderate fat level (16%) help preserve a long, slender and muscular body.
Enriched with L-carnitine, involved in healthy fat metabolism.

DIGESTIVE HEALTH
Highly digestible protein (L.I.P.*) and prebiotics to help support a balance in the intestinal flora.
**Protein selected for its very high digestibility.*

HEALTHY GLOSSY COAT
Specific amino acids, vitamins, Omega 3 and Omega 6 fatty acids to help maintain a healthy skin and shiny coat.

URINARY HEALTH
Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION
Dehydrated poultry protein, vegetable protein isolate*, maize, wheat, animal fats, maize gluten, rice, hydrolysed animal proteins, beet pulp, minerals, fish oil, yeasts and parts thereof, fructo-oligo-saccharides, soya oil, hydrolysed yeast (source of manno-oligo-saccharides), borage oil, marigold extract (source of lutein).
**L.I.P.: protein selected for its very high digestibility.*

ADDITIVES (PER KG)
Vitamin A: 31000 IU, Vitamin D3: 800 IU, E1 (Iron): 38 mg, E2 (Iodine): 3,8 mg, E4 (Copper): 12 mg, E5 (Manganese): 50 mg, E6 (Zinc): 150 mg, E8 (Selenium): 0,08 mg, L-carnitine: 50 mg - Technological additives: Clinoptilolite of sedimentary origin: 10 g - Preservatives - Antioxidants.

FEEDING GUIDELINES

ADULT
Sphynx

ADULT Sphynx - Over 12 months old

[Available in 2kg]

Tailor-made kibble

EXCLUSIVE FORMULA
Omega 3 & Omega 6 fatty acids

SPECIAL SPHYNX JAW
This specially designed thick triangular-shaped kibble, adapted to the Sphynx cat's jaw, encourages chewing to help support oral hygiene.

To compensate for the absence of hair, the Sphynx has a very active metabolism to control body temperature.

HIGH ENERGY INTAKE
A high calorie formula with a high level of fat (23%) to meet the greater energy needs of this hairless cat.

HEALTHY SKIN SUPPORT
An exclusive complex of nutrients helps support the skin's "barrier" role. Enriched with Omega 3 and Omega 6 fatty acids for their support in skin health.

CARDIAC HEALTH
Taurine, EPA and DHA to help maintain healthy cardiac function.

URINARY HEALTH
Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

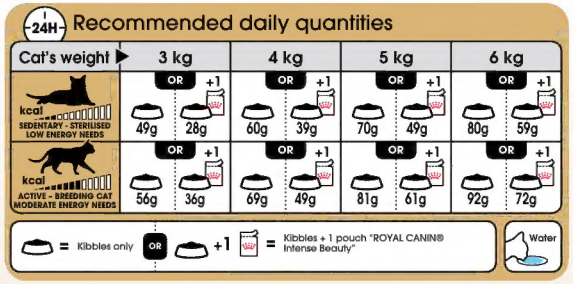
INGREDIENTS

COMPOSITION
Dehydrated poultry protein, animal fats, rice, vegetable protein isolate*, maize gluten, vegetable fibres, maize, dehydrated pork protein*, hydrolysed animal proteins, wheat, beet pulp, yeasts and parts thereof, fish oil, minerals, dried tomato pulp (source of lycopene), soya oil, fructo-oligo-saccharides, hydrolysed yeast (source of manno-oligo-saccharides), borage oil, marigold extract (source of lutein).

*L.I.P.: protein selected for its very high digestibility.

ADDITIVES (PER KG)
Vitamin A: 32000 IU, Vitamin D3: 900 IU, E1 (Iron): 36 mg, E2 (Iodine): 3,6 mg, E4 (Copper): 11 mg, E5 (Manganese): 47 mg, E6 (Zinc): 140 mg, E8 (Selenium): 0,09 mg, L-carnitine: 50 mg, Taurine: 2,57 g - Technological additives: Clinoptilolite of sedimentary origin: 10 g - Preservatives - Antioxidants.

FEEDING GUIDELINES



*Taking into account cats' weight.
